

CleanStation[®] XL Plus[™]

"First Choice of FDM Professionals"

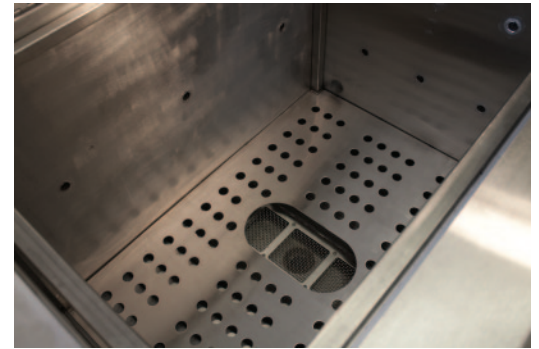

The XL plus is the largest regular production CleanStation available.

With a work envelope in excess of 23,000 cubic inches, the 100 gallon tank features a 360 degree manifold powered by a 53 gallon per minute, stainless steel pump.

The XL plus features a fully programmable, micro-processor controlled, 16,500 watt circulation heater combined with a 5 fan active cooling system to maintain optimal operating temperature.

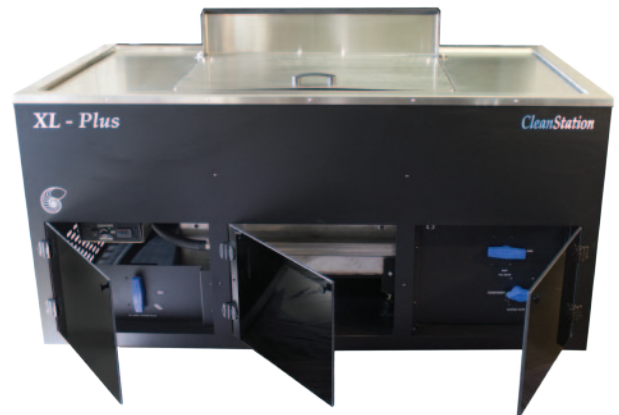

**Soluble Support Removal
for the Fortus 900MC**
