

XL Plus shown

The XL Omega is the largest production CleanStation available.

With a work envelope in excess of 33,000 cubic inches, the 140-gallon tank features a 360-degree, multi-jet manifold powered by a 53-gallon-per-minute stainless steel pump to clean parts fast. Unlike ultrasonic cleaners, CleanStation systems are not load sensitive, offering efficient batch processing for maximum throughput.

The XL Omega features a fully-programmable microprocessor-controlled circulation heater combined with an active cooling system to maintain optimal operating temperature.

**Options:** Automated Lift System

**For use with all FDM/FFF 3-D printers with soluble support.**

## Product Features

- ◆ Large part capacity
- ◆ Heavy duty, industrial grade
- ◆ Stainless steel tank and basket
- ◆ "One touch" automated control
- ◆ Programmable for time and temperature
- ◆ Quick warm up
- ◆ 360-degree multi-jet manifold
- ◆ Locking casters
- ◆ Stainless steel 'hose barb' plumbing inlets and outlet
- ◆ Hinged and locking tank lid
- ◆ Large-capacity stainless steel parts basket
- ◆ Adjustable flow rate
- ◆ Recessed "no drip" top
- ◆ One-year warranty
- ◆ Made in USA

## Product Specifications

- ◆ Work envelope: 37" x 36.50" x 26.13"
- ◆ Machine Dimensions: 74.58" x 51" x 37.85"
- ◆ Power Requirements: 51 Amps (208 VAC)
- ◆ Tank capacity: 35,288 cubic-inch, 150-gallon stainless steel tank
- ◆ Shipping weight: 1,800 lbs.
